

Safe Parking is a program for women and families living in their cars. We recognize that people who are homeless and have a vehicle face challenges in where to park their car without fear of tickets or harassment.

We recognize that homelessness can be isolating and the benefits of community and relationships can be life-transforming. We at Lake Washington United Methodist Church offer our parking lot to guests as a safe place to park, sleep in their cars, and become part of our church community. After a short intake process and background check, guests are invited to stay in the parking lot.

LWUMC is a community for sharing resources, providing emotional support, and being a spiritual sanctuary in a scary, unpredictable situation.

Safe Parking Building Access Hours:

Volunteer stats for 2022

- ◆ 12 weekly hosts
- ◆ 196 donors
- ◆ 258 days volunteers served meals
- ◆ 516 logged donations

Move-in Ministry 2022

Safe Parking participates in a Move in Ministry in conjunction with Sophia Way, Holy Family, New Bethlehem, and St. Vincent DePaul to furnish apartments for the newly housed. In 2022 this ministry provided support for 106 households.

Volunteer hosts come every evening so guests have access to the indoor bathrooms, kitchen, and phone. We partnered with Fences for Fido to install a dog run for our guests. Through a grant, we provide free Wi-Fi. We have information on community resources available, including where to shower and do laundry.

Guests are welcome to join church activities, but are under no obligation to do so. Many guests have participated in small groups, gone on retreats, and volunteered their services to the church in a variety of ways. Through our Wednesday night Community Dinner and our volunteer hosts, many wonderful relationships have been formed between housed and homeless members of our church community.

Safe Parking Program

Lake Washington United Methodist Church

Our mission is to practice radical hospitality by providing a safe place for women and families to park while living in their cars.

The program welcomes women and parents with children under age 18 living in a car (RVs, campers or trailers are not allowed).

The parking lot is available 24-7 as this creates a consistent space for guests to get enough sleep and organize the day to be most effective and allows children to go to school and come back to the same space.
